DETAILED ACTION

Allowable Subject Matter

Claims 1-2, 4-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a backlight module for an LCD with a bottom plate, driving circuit board disposed in the middle of the bottom plate with a plurality interlaced light emitting elements located at the circuit board having electrodes disposed at the two ends of the elements wherein the electrodes disposed at the circuit board of the adjacent light emitting elements extend to both sides of the circuit board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cho (6,674,250), Van Duijneveldt (5,975,722), & Lim (6,939,020) disclose a backlight assembly for an LCD having elongated light emitting elements running parallel to each other in an interlaced fashion. Kim (PG Pub 2004/0174333) discloses a backlight module with circuit boards disposed in the middle with elongated light emitting elements disposed at each circuit board.
